

Schedule Diagram

Task Descriptions:

- A) CLOUD-105: Redesign course page
- B) CLOUD-106: Add Grades course page
- C) CLOUD-107: Restyle assignments course page
- D) CLOUD-110: Redesign Navigation bar for landing page
- E) CLOUD-111: Add welcome message on landing page
- F) CLOUD-108: Re-design login page and add cues to give users more feedback
- G) CLOUD-109: Allow users to customize user preferences during registration
- H) CLOUD-100: Implement navigation bar for logged in user
- I) CLOUD-102: Implement like counters and statistic tracking for user posts

Critical Path (longest): [(a), (b)] -> 9 time units total

Explanation: For this sprint, there were minimal dependencies between tasks as most core features and pages we built on were already implemented in past sprints. This resulted in a much more relaxed schedule than usual. The only dependency was the addition of a grade viewing section within the course webpage (CLOUD-106) which could only be included once the course page had been restructured appropriately (CLOUD-105).

Table Representation:

Task ID	Required For	Time Units Estimate
a	b	3
b	none	6
c	none	3
d	none	4
e	none	4
f	none	5
g	none	5
h	none	10
i	none	12
